DEFERS ACTION ON LAND BILLS

California Legislature Awaiting Developments.

WILL PROTECT EUROPEANS

Poll of State Senate Shows Overwhelming Majority in Favor of an Anti-Alien Land Holding Enactment, but No Disposition to Have Its Provisions Affect Any One Eligible to Citizenship.

Sacramento, Cal., April 19.—Further action on the anti-alien land bills pending before the California legislature has been deferred until next week. This decision was reached, it was said, because some word was expected from Washington in relation to the protest of the Japanese government against possible infringement of the treaty rights of Japanese citizens in this state.

Reports of the popular agitation in Japan over the proposed action in California provoked considerable comment about the legislative chambers. The violence of these protests, as well as the inquiries as to the effect of the proposed bills on other alien interests in California, led to the belief here that President Wilson might find it expedient to indicate his views or suggest a course of action tending to relieve the situation.

A poll of the senate disclosed an overwhelming majority in favor of an anti-alien bill, but scarcely a handful of senators indicated a wish to include in its provisions foreigners or foreign corporations controlled by persons eligible to citizenship. The campaign in behalf of European investments in the state, it was stated, had begun to be reflected in the change of opinion among individual members in this regard.

According to Senator Thompson, who drafted the original bill submitted in the senate, the only bill acceptable to the Japanese would be one placing all aliens on a par. A poll of the house shows that such a law could not be passed.

In case no word comes from Washington it is regarded as certain here that a law directed almost solely against the Japanese will be passed, with clauses exempting all European corporations. Only seven members of the senate have declared themselves against such a bill.

WILSON WATCHING EVENTS

President in Close Touch With Japanese Situation.

Washington, April 19.—President Wilson kept in close touch with the situation both in Japan and California over the proposed alien land legislation.

The president told his callers that the federal government must of necessity refrain from interference with California while in the process of legislation and cannot make its attitude known to inquiring nations until the bills were passed. It is unlikely that the president will communicate his views directly or take any step that will interfere with the legislative process, but he hopes through members of congress here to do his utmost to prevent any obvious violation of treaty obligations.

Should treaty rights be violated he is hopeful that Japan will withhold judgment until the American courts have dealt with the question.

The federal government fully intends to give Japanese residents every protection and privilege accorded foreigners under the favored nation principle of its treaties.

GIRL SOLD IN MARRIAGE

Mere Child Says Her Father Bartered Her Away.

Wilmington, Del., April 19.—A fifteen-year-old girl, Teresa Sasso, complained to the Wilmington police that her father had sold her in marriage, taking a sum of money from Antonio Cotto in her presence, and that her father compelled her to go through a ceremony. The chief of police said he had ascertained that Cotto had paid the father \$130. The case was laid before Attorney Wolcott, who directed that the girl be sent to an institution pending his application for an annulment of her marriage. The girl and Cotto were married about a week ago.

MAY CLOSE LAND OFFICE

Instructions to Hold No Hearings in Fargo Later Than June 30.

Fargo, N. D., April 19.—A telegram to the local land officials from the general land office at Washington instructed them not to set any hearings of contests later than June 30. This is construed as meaning that the office is to be permanently closed on that date.

Democrats have abandoned hope of getting two tiers of townships cut off the Bismarck district and are now endeavoring to have this district combined with the Devils Lake district instead of with Bismarck, so the Devils Lake office can be maintained four years or more.

There is much unfinished business in this district, but only about 1,500 acres of land left. None is desirable for entry.

BARTER OF FLESH STILL IN FORCE

Inhuman Conditions Exist at Chicago Baby Farms.

ABANDON CHILDREN FOREVER

Illinois Legislative Committee Ascertains That Young Mothers Contract for Disposal of Their Infants Before Birth—Heads of Maternity Homes Say Demand for Babies Far Exceeds the Supply.

Chicago, April 19.—Inhuman conditions at "baby farms" in Chicago were revealed in the Illinois house committee's investigation of maternity homes and institutions where children are kept. They were such as to bring from Chairman Thomas Curran the assertion that the barter of flesh has not ceased and that dealing in babies is the "most dastardly business existing."

The representatives were told that mothers contracted for the disposal of their infants before birth, signing an agreement which ends:

"I promise and declare I will never see said child, but do release and abandon it forever."

They were informed that babies were shipped out of the state when only a few hours old and their mothers were hired out to nurse the infants of the wealthy. Superintendents of maternity homes admitted they kept no records, that once a child was sent away there was nothing by which it could be traced.

"But don't you ever inquire how these babies are treated, whether they live or die?" inquired Chairman Curran of Dr. Charles S. Wood of the Union Park Maternity home.

"We keep no records at all."

"But what if one of these girls returns in a year or so and wanted her baby, is there no way in which she could find it?"

"Our responsibility ceases when we find a home for the infant."

Demand Exceeds Supply.

The testimony brought out that 85 per cent of the unmarried patients in the "lying in" hospitals are girls from out of the state who come to the city to hide their shame. The heads of the homes said they advertised extensively that they had "babies for adoption," but that such advertisements are blind. They asserted the demand for infants exceeded the supply.

Dr. Wood said that on Feb. 14 an infant was born at 4 o'clock in the afternoon. Two hours later it was aboard a train bound for McGregor, Ia. His explanation that an infant of that age could live without nourishment and without suffering brought smiles to the faces of the representatives. The physician said that in twelve years there had been 665 patients in his hospital, but he denied there had ever been a death.

When the committee showed him the records of the city health department to which four still births had been reported he changed his testimony. He insisted that no crippled children had been born.

The doctor said he spent \$1,600 in advertising, mostly in farm publications. He charged patients from \$100 to \$300, he said.

A physician from the health department testified that Wood's hospital is insanitary and he would recommend that it be closed.

SECOND GRAFT CONVICTION

New York Policeman Found Guilty of Collecting Tribute.

New York, April 19.—The second trial of a policeman accused of grafting resulted in the conviction of Patrolman Thomas F. Robinson on the charge of extorting protection money from a restaurant keeper.

Robinson, it is alleged, was grant collector for former Inspector Dennis Sweeney, now awaiting trial on thirteen separate accusations.

Another patrolman who served under Sweeney is now serving a term in Sing Sing prison for perjury himself to protect his former superior in the district attorney's vice crusade.

PUBLISHERS ARE CONVICTED

Orange Judd People Conspired to Get Mailing Privileges.

Boston, April 19.—Herbert Myrick and James M. Cunningham, publishers of the Orange Judd Northwest Farmstead of Springfield, were found guilty of conspiracy to obtain illegally second class mailing privileges for that publication, by a jury in the United States district court. The men were convicted on two indictments.

A penalty of not more than two years imprisonment, or a fine of not more than \$5,000, or both, is provided.

An appeal for a new trial will be made, pending which both men were released on bail.

O. W. UNDERWOOD.

Will Have Charge of Tariff Bill in House.

Copyright by Harris & Ewing.

IN HOUSE NEXT WEDNESDAY

New Tariff Bill Expected to Be Brought Up.

Washington, April 19.—The tariff revision bill, pressed rapidly in the Democratic caucus of the house, was considered simultaneously by a conference of the Republican representatives who agreed to propose amendments, and Democratic Leader Underwood predicted the bill would be brought up in the house next Wednesday.

In the Democratic caucus the ways and means committee majority was sustained at every point during a series of fights over proposed amendments to the income tax, the only important change being by acquiescence with the committee to strengthen the provision exempting life insurance policies. The \$4,000 exemption and graduated scheme of income taxation running up to 4 per cent on \$100,000 or more was retained intact.

The house Republicans, in an open conference, endorsed the proposed amendment to the bill that would provide for a tariff commission.

INDIAN SLAYS WIFE AND MOTHER-IN-LAW

Winds Up His Gun Play by Committing Suicide.

Rapid City, S. D., April 19.—As they were leaving their home on the Pine Ridge agency to come to this city, Betty, wife of Jacob Arrow Boy, and her mother, Sally Two Shoes, were shot and killed by the former's husband, who afterwards killed himself.

Arrow Boy had an altercation with his squaw a short time before the shooting which resulted in his starting for Chadron, Neb., to secure a divorce. At Chadron he was arrested for stealing the horse he was riding. As the sheriff was about to place the Indian in jail the latter whipped out a gun and soon had the sheriff securely locked behind his own bars.

Arrow Boy then sped back to the reservation and sought out the tepee of his wife and mother-in-law, Sally Two Shoes, and divorced himself with the aid of his six-shooter.

After killing the women he took a shot at an Indian boy who chanced to be standing near and who had witnessed the double murder. He then proceeded to the tepee of his uncle, who upbraided him, and the gun was again brought into play. The uncle escaped the shots and under cover saw Arrow Boy go behind some bushes and kill himself.

An Editor Who Can Talk.

It has always been asserted that editors are not talkers, but such is not the case in regard to Editor Daniels, now secretary of the navy. Daniels learned the game of talk long ago, finding that it was often necessary to express himself orally as well as editorially.

WILL BE TRIED FOR MURDER

Bank Clerk Held on Charge of Killing Cashier.

Washburn, N. D., April 19.—William T. Anderson, clerk of the First National bank of Washburn, was arraigned before Karl Klein, justice of the peace, on a charge of murder in the first degree in connection with the shooting of Franklin E. Funk, cashier of the bank in which he was employed. He waived examination and was remanded to the custody of Sheriff Simon until his case is called before the district court in June. He was not admitted to bail under the provisions of a North Dakota statute relating to prisoners whom it is possible may be convicted by a jury for murder in any degree, or manslaughter. Anderson will remain a prisoner in the McLean county jail for the intervening two months.

The affairs of the bank have been found to be in excellent shape. August E. Johnson has been named temporary cashier by the directors.

TO NAME BUTTER PRICES

Elgin Board Hit by Milwaukee Produce Exchange and Dealers.

Milwaukee, April 19.—The Milwaukee Produce exchange announced that it will make its own prices on butter, instead of adhering to quotations of the Elgin butter board.

Milwaukee commission dealers declare that hereafter they will pay the prices that conditions warrant, instead of holding to Elgin standards.

TARIFF BILL MAY BE PASSED INTACT

Underwood Possibly Can Hold It Together.

"GAG RULE" WOULD DO WORK

Although Much Denounced, It Really Is an Effective Instrument For Preventing Alteration or Amendment of Important Measures—Public Will Not Care How Trick Is Done.

By ARTHUR W. DUNN.

Washington, April 19.—[Special.]—If Chairman Underwood should get a caucus endorsement for his tariff bill, with practically an ironclad agreement that the bill shall go through unamended, the next step will be to prevent votes on amendments which would embarrass individual Democrats of the house.

For instance, many Democrats would be compelled to vote for protection on this and that in their different districts, but if a "gag rule" should be adopted, cutting off all opportunity for amendments, they could vote for the bill as a whole and tell their people there was no help for them—that they could not do anything else.

The much denounced "gag rules" are really safety valves for those who want to remain with the party, but who would be compelled to go astray on certain amendments, and for that reason it is quite probable that Underwood will be able to put through some resolution which will keep his bill intact and give neither Democrats. Republicans nor Progressives an opportunity to amend.

People Will Not Care.

The people will not care how the thing is accomplished providing what is done suits them. As long as the Republicans were in power and passed legislation that the people wanted it made no difference how it was put through, whether under liberal debate or by "gag rules." It was when "gag rules" and Cannon methods were used to put through a measure like the last tariff act, which the people did not want, that an outcry was made against "Cannonism" and house methods.

But the same methods must always be used by the majority party, either in one form or another. In the last congress the separate tariff bills were first endorsed by the Democratic caucus and a binding agreement made that they should not be amended. That agreement was carried out. Either by a rule or an agreement Chairman Underwood can accomplish the same result with his present tariff bill.

Farm and Orchard Birds.

Frequently the agricultural department makes a ten strike in regard to a government publication. There was the horse book, which helped to add lustre to the fame of Uncle Jerry Rusk more than twenty years ago. Recently the department issued a book on "Fifty Common Birds of the Farm and Orchard," telling how the birds aided the farmer. Senator Martine of New Jersey called attention to it by trying to have 1,000 copies printed for each senator and telling how great had been the demand for them. The watchdogs of the printing office would not consent to have the printing done for the present. But in time the demand for the book will force them to consent.

"He's No Hermit."

After President Wilson had called at several places, read his message to congress, visited the senators and talked tariff to them, attended baseball games and was a prominent guest at the Gridiron dinner and had walked about the parks for exercise he merited the remark of an old employee near the White House, "He's no hermit, you bet."

An Editor Who Can Talk.

It has always been asserted that editors are not talkers, but such is not the case in regard to Editor Daniels, now secretary of the navy. Daniels learned the game of talk long ago, finding that it was often necessary to express himself orally as well as editorially. In the political fights he had in North Carolina the vigorous editorial utterances were not sufficient. There were times when he wanted to make the people hear what he had to say. When speaking for the navy he makes good.

Debate Behind Closed Doors.

Debating the tariff behind closed doors, with no opportunity to get the speeches in the papers nor in the record, comes under the head of cruelty to congressmen, but Oscar Underwood concluded that the only way to have his tariff bill endorsed by the caucus was to keep the Democrats right down to business without giving them any opportunity for playing to the galleries.

Baseball and Congress.

Many congressmen are taking comfort out of the fact that the baseball season will relieve the tedium of tariff talk when the bill gets before the house. More particularly will this be true when the bill goes to the senate, where it will have a much longer period of consideration. As long as the committees are not appointed there will be no special effort to take up the business of the session outside of the tariff.

There is still talk about currency legislation, but that has not been considered as real pressing at this time.

The Pig.

"How is a pig different from every other animal?" "It is first killed and then cured."

POPE PIUS X.

Pontiff Is Making Rapid Progress Toward Recovery.

MRS. STORY IS PRESIDENT

Chosen Head of the D. A. R. on the Third Ballot.

Washington, April 19.—Mrs. William Cummins Story of New York, head of the conservative faction, was elected president general of the Society of the Daughters of the American Revolution, defeating Mrs. John Miller Horton of Buffalo, the administration candidate, on the third ballot. The vote stood Mrs. Story 600, Mrs. Horton 449.

Seven vice presidents general also were elected: Mrs. Thomas Kite of Ohio, Mrs. Rhett Goode of Alabama, Mrs. John Swift of California, Mrs. Allen P. Perley of Pennsylvania, Mrs. Ben F. Gray, Jr., of Missouri; Miss Harriet I. Lake of Iowa, and Mrs. John Lee Dinwiddie of Indiana.

When the result of the third ballot was announced the successful candidate was escorted to the platform. She made a plea for harmony and urged all the new general officers to do their utmost to bring peace between the factions that have waged an almost continuous warfare for the last five years. The new general officers and all pledged their support to Mrs. Story.

BRYAN AND CLARK ONCE MORE FRIENDS

Settle Difference Which Arose at Baltimore Convention.

Washington, April 19.—Champ Clark and William J. Bryan have wept on each other's shoulder and made up. After elaborate negotiations covering several days the two were brought together at a luncheon for the first time since the falling out at the Baltimore convention, which resulted in the overthrow of the Clark boom and the nomination of Woodrow Wilson. The two clasped hands, broke bread together and issued statements.

The Bryan statement is plainly apologetic. The secretary of state says in effect:

"You were all right, Champ; it was the company you were keeping that I objected to."

The speaker in his statement concedes nothing except that Mr. Bryan now has done all that he can to repair the injury inflicted at the Baltimore convention.

The harsh feeling between Clark and Bryan has been one of the danger spots in the Democratic situation. The speaker came out of the Baltimore convention avowing that he would never again have anything to do with Colonel Bryan. Clark, on every occasion, showed his bitter feeling toward the commoner. No sign of recognition passed between the two at the inauguration when they sat only a few feet apart at the ceremonies.

KILLS HERSELF AND CHILD

Women Spends All Except 1 Cent of Baby's Funeral Suit.

Chicago, April 19.—A woman who registered at a downtown hotel as Mrs. R. C. Davison of Bellaire, name of state not given, spent all except her last cent to purchase a white suit for her baby's funeral, took the child upon her knee, rocked him to sleep while two gas jets, opened wide, slowly asphyxiated them.

The bodies were found when the door of the room was forced.

Radium.

Only about one-third of a grain of radium is produced from a ton of ore.

POPE IS MAKING RAPID PROGRESS

HOLDS DOWN ITS EXPENSES

Minnesota House Spending Less Than Two Years Ago.

St. Paul, April 19.—Expenses of the house of representatives will be \$25,710 less for the 1913 legislature than in 1911, according to Kerry Conley of Rochester, chairman of the legislative expense committee.

In a report submitted Mr. Conley shows that the present house has spent only \$5,011 for supplies against \$20,490 in 1911, \$737 for furniture at the present session compared with \$2,180 two years ago and \$572 for committee visits to state institutions against \$1,453 two years ago. The total cost is \$169,247 against \$194,953 in 1911.

Representative J. W. Wilson's bill establishing a state minimum wage commission to provide for the determination and establishment of minimum wages for women and minors was passed by the senate by a vote of 42 to 2.

The senate elections committee bill providing for the election of United States senators by a popular vote passed the senate without a dissenting vote.

IN MEMORY OF PAUL REVERE

Patriot's Descendant Hangs Lantern in Old North Church.

Boston, April 19.—Miss Pauline Revere hung a lantern in the belfry tower of the Old North church in observance of the midnight ride of her famous ancestor 138 years ago.

Miss Revere, who is only fourteen years old, took part in exercises held at the historic church in celebration of the eve of the battle of Lexington. Longfellow's poem, "Paul Revere's Ride," was recited by Professor Charles T. Copeland of Harvard. Bishop William H. Lawrence spoke on the significance of a peaceful patriots' day and the church bells pealed out patriotic tunes. Officials of the state and city joined in the observance.

General Condition of His Holiness Very Favorable.

NO FEVER FOR THREE DAYS

Should Present Conditions Continue for Two More Days the Pontiff Will Be Considered Convalescent and the Physicians' Bulletins Will Be Discontinued—Pessimistic Persons Shake Their Heads Dubiously.

Rome, April 19.—The news that emanated from the Vatican was that Pope Pius had passed three days without fever, that his general condition was progressing favorably and that if these conditions continue for two days more his holiness will be considered convalescent and the bulletins of the physicians will be discontinued.

Although this information came from the physicians and was confirmed by Cardinal Merry del Val, the papal secretary of state, it did not prevent persons of pessimistic tendencies from continuing to shake their heads dubiously and inventing ailments for the pontiff. They declared he was suffering from pathy pneumonia and consumption.

Professor Ettore Marchiafava, the pope's chief physician, was asked concerning the condition of his patient. In writing he replied:

Heart and Pulse Strong.

"The holy father has suffered from influenza, with a slight affection of the trachea and larger bronchial tubes; broncho-pneumonia has never even been suspected. I have never doubted for his recovery, sooner or later. His general condition always has been of the best. His heart and pulse are strong and normal and the sensorial nerves intact."

It must be added, however, that although all Professor Marchiafava says in his statement may be perfectly true, another affection exists which is not in an acute stage now, but is always liable to recur. This is a gouty kidney.

The better condition of the pope is shown by his increasing interest in affairs. He insisted on conveying his last instructions to Cardinal Ferrata, who left for Malta to preside at the Eucharistic congress. He also desired to know what arrangements had been made concerning the pontifical mass which he was to celebrate in St. Peter's on Pentecost Sunday, three weeks away.

WOODMEN MEETINGS DATED

Secession Plans to Be Discussed in District Conventions.

St. Paul, April 19.—Conventions of Modern Woodmen, to meet by congressional districts in Minnesota to consider withdrawing from the parent order and setting up an independent order in Minnesota under the O'Neill bill, recently passed, have been called by J. L. Sundean and other "insurgent" leaders. The convention dates have been set as follows: First district, Rochester, May 19; Second district, Windom, May 21; Third, Fourth and Fifth districts, Anoka, Isanti, Sherburne, Meeker and Wright counties, Minneapolis, May 25; Sixth district, Little Falls, June 2; Seventh district, Granite Falls, May 26; Eighth district, Duluth, June 9; Ninth district, Detroit, June 4.

Anderson-Erickson

Simon Anderson and Miss Esther Erickson were married at two o'clock this afternoon at the parsonage of the Seventh Street Norwegian Lutheran church, Rev. M. L. Hostager performing the pleasing ceremony. The bride wore a handsome gown of cream colored serge and carried a bouquet of flowers. She was attended by the groom's sister, Miss Clara Anderson. The best man was Severn Antonson.

Mr. Anderson is a machinist employed at the shops and is well known and well liked by all his associates. The bride has a large circle of friends. They left this afternoon for Cloquet where they will visit relatives. Returning, they will make their home in Brainerd.

The Dispatch joins their many friends in wishing them all possible happiness and prosperity.

On Thursday evening the bride and groom-to-be were entertained at the home of Mrs. Albert Bacon, where a party was given in their honor. Friends presented them with a fine rocking chair. The Bacon home was beautifully decorated for the occasion, the prevailing colors being cream and lavender. A luncheon was enjoyed by the twenty or more people present.

Coughs and Consumption
Coughs and colds, when neglected always lead to serious trouble of the lungs. The wisest thing to do when you have a cold that trouble you is to get a bottle of Dr. King's New Discovery. You will get relief from the first dose, and finally the cough will disappear. O. H. Brown, of Muscadine, Ala., writes: "My wife was down in bed with an obstinate cough, and I honestly believe had it not been for Dr. King's New Discovery, she would not be living today." Known for forty-three years as the best remedy for coughs and colds. Price 50c and \$1.00. Recommended by H. P. Dunn.—Advt. 11

THE HOUSE OF QUALITY

**GRAND THEATRE**

CHANGES HANDS

Paul Perkins Sells His Interests in Popular Play House to Clyde Parker and E. McCarthy

WILL TAKE POSSESSION MONDAY

The House will Continue its Policy of Running Only Independent Pictures

Paul Perkins has sold his interests in the Grand theatre to Clyde Parker and E. McCarthy.

Mr. McCarthy, however, will not give up his insurance business, carrying on that branch in addition to his work in the moving picture line.

The policy of the house will not be changed and only independent pictures will be shown. The Grand is one of the handsome theaters of the city and all are assured that the young men having it in charge will make a success of their venture.

Mr. Perkins has made many friends in his year's stay in Brainerd who will be sorry to see him go, leaves for Pine City where he will go in the hardware business with the Smith Hardware company. Brainerd residents regret exceedingly to lose two such pleasant people as Mr. and Mrs. Perkins and they wish them all possible success in Pine City.

Drive Sick Headaches Away
Sick headaches, sour gassy stomach, indigestion, biliousness disappear quickly after you take Dr. King's New Life Pills. They purify the blood and put new life and vigor in the system. Try them and you will be well satisfied. Every pill helps; every box guaranteed. Price 25c. Recommended by H. P. Dunn.—Advt. 11

DON'T MISTAKE THE CAUSE
Many Brainerd People Have Kidney Trouble and Do Not Know it

Do you have backache? Are you tired and worn out? Feel dizzy, nervous and depressed? Are the kidney secretions irregular?

Highly colored; contain sediment? Likely your kidneys are at fault. Weak kidneys give warnings of distress.

Heed the warning; don't delay—Use a tested kidney remedy. Read this testimony from Brainerd.

Anthony Miller, 913 Seventh St. S. Brainerd, Minn., says: "There was much lameness across my kidneys and I also suffered constantly from backache. I tried most every remedy that was brought to my attention but nothing helped me until I used Doan's Kidney Pills, procured at H. P. Dunn's drug store. They strengthened my back, removed the lameness and thus made it possible for me to get my proper rest. I know Doan's Kidney Pills to be good for kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

HAYDEN'S

MANDAMUS IS QUASHED

Supreme Court Overrules Stanton and Petition of Schwartzkopf and Sheets Denied

VICTORY FOR CITY COUNCIL

Question Involved Affects Not only Brainerd, But Every City In the State

Important to every municipality in the state of Minnesota is the decision just handed down by the state supreme court in the case of State of Minnesota, ex rel Hugo Schwartzkopf and R. M. Sheets vs the City Council of Brainerd, for it settles a question in American jurisprudence never passed on by any court before, that of citizens petitioning for a redress of grievances.

The syllabus of the state supreme court says: "Section 12 of the city charter of Brainerd imposes no duty upon the city council to entertain and hear a petition filed by citizens and taxpayers, whether specially interested or not, preferring charges against city officers and demanding their removal; and hence an alternative writ of mandamus to compel the council to fix a time and place for a hearing upon charges so preferred was demurrable."

M. T. Dunn, president of the water and light board, will not have to stand trial by the council on charges preferred by Messrs. Schwartzkopf and Sheets. The court holds in an opinion by Justice Philip E. Brown, that the city charter imposes no duty on the council to entertain and hear petitions filed by citizens, preferring charges against city officials. Hence an alternative writ of mandamus to compel the council to fix a time and place for a hearing on the charges so preferred was demurrable.

In the brief filed by City Attorney M. E. Ryan, who was the attorney for the city council, is given a history of the case. In December 1911 the city council of the city of Brainerd, through a committee of its members upon the petition of one of the relators and others commenced an investigation of the management and books of the water and light board of Brainerd. This committee made its report to the council, and thereafter the council as a whole, upon the request of the petitioners in that proceeding heard certain oral testimony taken under oath and the council determined that no charges be

GOVERNOR VETOES MINNETTE BILL

St. Paul, April 19.—Governor Eberhart today vetoed the Minnette bill placing the regulation of telephone companies in the hands of the state railroad and warehouse commission. He also reiterated his former declaration that he would call an extra session to secure the enactment of a satisfactory public utilities bill.

preferred against any city official involved in the investigation.

Thereafter and in September, 1912 the relators in this proceeding filed with the city council a petition demanding that the city council pursuant to section 12 of the city charter above mentioned "shall proceed forthwith to remove the said M. T. Dunn from office as president of the water and light board and declare such office vacant."

The council declined to do so and adopted a resolution concisely reciting the history of the matter and thereafter these relators sued out an alternative writ of mandamus requiring the council to fix a time and place for a hearing of the charges preferred against M. T. Dunn or to show cause why.

The respondents moved to dismiss the order to show cause and quash the alternative writ, and also filed a demurrer to the writ. Judge C. W. Stanton, of the district court, heard the matter on October 12 and on November 27 filed an order denying the respondent's motion and overruling the demurrer from which this appeal was taken.

There are two general questions involved in the appeal to the state supreme court:

Must a governing body vested with the power to remove officers proceed to hear charges formulated and preferred by private citizens?

Does not the record show affirmatively the council has already passed on the very matter it is here contended they should be compelled to pass on again?

In the absence of statutory requirements the common law rule that charges should be formulated and preferred by the sovereign applies.

Since the charter provision does not "specifically enjoin" the governing body so to do, it is therefore a discretionary matter and the relators have no "clear legal right" to the same.

For reasons of sound public policy, governing bodies should not be compelled to hear charges formulated and preferred by private citizens.

The city council of Brainerd consists of ten aldermen elected from five wards for two years and each receives a salary of \$50 a year. The council holds two regular meetings per month and many special meetings during the year and much time is given by them in committee work. The council is composed of men very much the same as in other cities of Brainerd's size. Some being men of large business interests, others men depending on their monthly wage, but all appreciating their duty to the public and willing to devote time and energy to the public interests. If councilmen must leave their various vocations and sit session after session as they did in this matter to hear matters that come to naught, it will inevitably deter fit men to hold such office. In the taking of the oral testimony in the preliminary session, some ten sessions were held by the council as a whole and something like 250 pages of testimony taken. Besides the council committee held innumerable meetings.

Now, if the council, the people's chosen representative, cannot determine in the first instance whether or not charges should be preferred, but this lies wholly in the mind of some disgruntled and dissatisfied citizen, how will it be possible to get fit men not only for the water and light board, but for other non-salaried boards who perform governmental and business functions for the city.

A person accepting such an office may rely on the judgment of ten men to say whether or not, he shall be charged with official wrong doing, but would not want that question left to the whim of every dissatisfied citizen and be put in a position of having his character and reputation besmirched and to the expense of defending as many separate accusations as there might be ill-advised and evil-minded citizens. If it is to be held a private citizen has the right herein invoked, where may it end?

The council if required to do so in one case, must of course, do so in all cases and it may well come to the point where the council will be required to give such matters time and attention to the exclusion of other important and necessary municipal affairs. It is no answer to say that such a condition is improbable.

Once open the door by making it the law of this state with the present inclination to muck-rake officials and no one can say where it will end.

The question involved herein affects not alone the people of Brainerd but probably every city in the state. The writer ventures to say there is not a single city in the state that its charter does not contain some such provision as is herein considered.

Many of the cities have the same provisions, word for word, adopted many years ago before the recall was heard of by any, except close students of government, and it is at least illogical to say that people in adopting charters ever contemplated such an innovation as is herein suggested.

(Continued on page 4)

DEVELOPMENTS OF WEEK ON RANGE

Judge G. W. Holland, Henry Rosko and Fred M. Koop Lessors of Leases to

BRAINERD-CUYUNA MINING CO.

Big Ore Strike West of Mississippi River on Dr. James L. Camp Farm

The strike of the underground miners on the Cuyuna iron range has caused one result which the miners never anticipated and that is the impetus given to the development of properties adaptable to pit mining or stripping and the conversion of shaft mines into stripping propositions. For instance, at the Thompson mine of the Inland Steel Co. at Crosby, ore has been found 40 feet from the surface and the shaft mine could be easily converted into a pit mine, thus materially lessening the expense of operation and maintenance. The hydraulic mine of the Pittsburgh Steel Ore Co. in section 17 west of Ironton and near Little Rabbit lake is an example of the cheapest method ever employed to remove the overburden. Electrically driven pumps, two 2,000 gallon pumps and a 3,000 gallon sand sucker do the work of stripping and when that part of the program is finished the steam shovels will do the rest. The property in section 13, township 45, range 30 near Loerch on the Northern Pacific railway, which has been proven by the Longyear Exploration Co. of Minneapolis, may also be another huge stripping proposition covering three forties. Whatever labor differences the range may have at this stage do not affect the fact that the ore is on the range and that it will be mined in one way or another.

A big ore strike has been made west of the Mississippi on what is popularly known as Dr. J. L. Camp's Mission farm where R. J. Whiteside, of Duluth, has two drills in operation. Eighteen holes sunk have proven up a good quality of ore. Of this tract 400 acres in section 3, township 145, range 27 were sold by Dr. Camp and an option was given to explore 600 acres in sections 4 and 9, township 135, range 27. The latter piece of property lies near the Mississippi and on it are located many of the farm buildings. The drills commenced operating in February.

The Hale-Bradley Exploration Co. of Deerwood has moved a drill to the southwest quarter of section 12, township 45, range 30 on lands owned by William J. Schwab of Minneapolis, James T. Hale, Paul M. Hale and Wilson Bradley of Deerwood. A. J. Harker is again drilling at the Wolfert place at Island lake.

Three new drill outfits have been bought by the Potts Exploration company of Deerwood and put on the range. Drilling at June lake was finished a few days ago.

The water has been about cleared from the Barrows mine of the Virginia Ore Mining company at Barrows and mining is about to be resumed.

The Adams mine at Oreland has a surface crew at work and Contracto Buzzo, of Eveleth has a crew engaged in sinking.

The Pennington mine has two shovels at work. Four trains of six dump cars each are engaged in hauling away the overburden. A very good showing is being made here and there is no interruption in work, day and night shifts being employed. The mine will be a big shipper this season.

The Cuyuna-Duluth Iron Co. mine at the north end of the Ironton township is down 190 feet. Two boilers are on the ground. Contractor C. B. Rowley, of Brainerd, has finished the cement foundations for the boiler and engine houses. Cement piers are in position for the head frame. A railway spur has been built to the mine. Cuyuna-Duluth and Cuyuna-Mille Lac stockholders and officers visited these mines Sunday. The Cuyuna-Mille Lac mine is shipping ore in growing quantities.

Fred W. Cram, formerly superintendent of the Thompson mine, has gone to Douglas, Arizona as engineer of a smelting company.

R. L. Kilpatrick, formerly the Crosby superintendent of the Inland Steel company, is now located at Coppermount, Alaska and is looking after the interests of George H. Crosby in that vicinity.

J. P. Mathews, master mechanic of the Rogers, Brown Ore Co., has perfected an improved pump valve which effects a considerable saving in rubber packing.

Dale & Bumgardner, of St. Paul, are reported to have the contract to build a belt line of the Northern Pacific railway extending from Cedar Lake to Deerwood, to Loerch and Ironton and Cuyuna. A steam shovel and construction outfit is reported to be quartered at Cedar Lake.

The Gopher Iron company was recently organized in St. Paul. At the head of this company is Frank E. Oberg, of Deerwood, one of the best posted men on the Cuyuna iron range, a pioneer acquainted with every step in the development of the range. He has been active in the formation of the company whose stockholders include some of the most prominent land men of the northwest. The company will operate and explore lands and is acquiring options. It has taken over a lease in the west half of the southeast quarter of sec-

tion 19, township 46, range 29, which has been partly explored and contains a nice body of ore. This is a part of a large body of ore which is owned by the Adams Investment company and as the surface is only from 35 to 50 feet it is an admirable stripping proposition.

The Gopher State Mining company has been organized with a capital of \$250,000 by William C. White, James T. Hale and Paul M. Hale, of Deerwood. Attorney White formed one of the first successful mining companies of the Cuyuna range. Judge James T. Hale is a former Duluthian and prominently identified with the development of the mining industry. His son, Paul M. Hale, is well known in the mining world. Arthur Dougherty has given an option to purchase to Joseph Weinberg and J. J. Robinson for a term of one year on the northwest quarter of section 29, township 44, range 31 and lot 7 of section 29, township 44, range 31, the price being \$2,000. Dougherty has a reservation to the effect that 10 cents a ton royalty is to be paid on a minimum tonnage of 5,000 tons the first year, 5,000 tons the second year, 15,000 tons the third year and 20,000 tons the fourth year and every year thereafter.

Joseph Rosko has given a 50 year lease to the Brainerd-Cuyuna Mining company for which \$500 was paid down. The property covers the southwest quarter of the northeast quarter of section 36, township 45, range 31 and is a tract of 18 acres. The royalty is to be 25 cents a ton and at least \$1,500 is to be paid in royalties each year. Should it be necessary to displace the farm buildings, then \$1,000 is to be allowed for the house, \$1,500 for the barn and \$75 for the milk house. The property is located in Southeast Brainerd within the city limits.

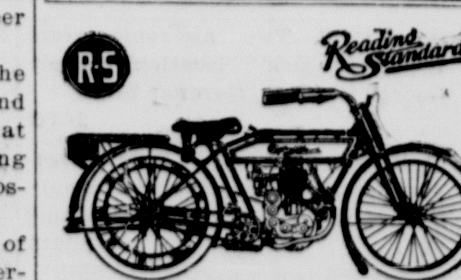

A 50 year lease has been given by Judge George W. Holland, of Brainerd, to the Brainerd-Cuyuna Mining company on three so-called 40 acre tracts, being the northwest quarter of the northwest quarter of section 1, township 44, range 31; the southeast quarter of the southwest quarter of section 36, township 45, range 31; the northeast quarter of the southwest quarter of section 36, township 45, range 31 and all of the northwest quarter of the southeast quarter of the same section lying west of the Northern Pacific railway tracks. The royalty is 25 cents a ton. During the first three years of the contract at least 5,000 tons of ore are to be mined from each 40 acre tract and during each year of the term thereafter 25,000 tons is to be the minimum tonnage from each forty.

Fred M. Koop, of Brainerd, has made a 50 year lease to the Brainerd-Cuyuna Mining company at a royalty of 25 cents a ton, the property being the west five acres of the northeast quarter of the northwest quarter of section 1, township 44, range 31. For the first three years royalty is to be paid on 625 tons annually and thereafter on an annual rate of 3,125 tons.

The Minnesota Timber Land Co. has sold to Emil Oberhoffer an undivided 1-10 interest in the minerals in the northwest quarter of the northeast quarter of section 23, township 134, range 28. The same company has sold to William D. Washburn, Jr., of Minneapolis, an undivided 1/4 interest in the northwest quarter of the southwest quarter of section 26, township 47, range 29; the southwest quarter of the southeast quarter of section 27, township 47, range 29; the northeast quarter of the northeast quarter of section 32, township 47, range 29; the southwest quarter of the southeast quarter of section 34, township 47, range 29.

The Arketah Co. has sold to B. How an undivided 3-20 interest in the southwest quarter of section 23, township 47, range 29; an undivided 11-100 interest in lot 1 in section 9, township 47, range 29, and an undivided 11-100 interest in the north half of the northwest quarter of section 35, township 47, range 29. C. J. Frederickson has sold to Frank A. Lindholm the north half of the southwest quarter of section 17, township 138, range 25.

Women's Shirt Waists

Extra Special at 59c

We have placed nine styles of beautiful new shirt waists in our windows and have marked them at the very exceptional price of 59c each. Not a style but would be cheap at 75c. It is a big bargain and you should see them.

House and Street Dresses

Extra Special at \$1.49

Another extra value in the same window is a selection of house and street dresses which we are offering at the very special price of \$1.49. We consider these very good values at \$1.75 and \$2. These you should see—You'll not take the time to make a dress of this character if you do.

"MICHAEL'S"

A Remarkable Corset

HERE'S a wonderful new corset—the Nemo "Auto-Massage Self-Reducing."

Haven't space to describe it in detail; but the makers say that its newly-patented construction not only reduces your figure by readjustment of the flesh, but also produces a sort of massage which results in the actual removal of the surplus fat, making your figure permanently smaller.

Nemo promises are always kept to the letter. This one may seem hard to believe, but you'll find it true.

Two models. No. 353 has low, sloping bust; No. 354 has medium bust. Wonderful value at the price—\$3.50.

"MICHAEL'S"

Shrubs and Bulbs

We have in stock and ready for planting May's Northern Green Shrubbery at prices 1/2 to 2-3 less than when you order from salesmen.

Honeysuckles, large bush 60 to 75c
Hydrangea 60 to 75c
Lilacs 60c
Spiraea 70c
Snowballs 70c
Peonies 70c
Roses 60 to 75c
Climater 95c

And many others. Shrubs are best of condition and will give good satisfaction.

BETTER LIGHT AT LESS EXPENSE

From COAL OIL (Kerosene)

THIS wonderful new incandescent mantle lamp gives more than ten times as much light as the common coal oil lamp. At the same time it burns less than half as much oil as the old style open flame, center draught lamps. Beats electric, gasoline or acetylene. The

Aladdin Hanging Lamp

is equipped with the adjustable extension chimney and baffle generator which make it the most reliable incandescent mantle lamp ever made. For evening reading, writing or sewing there is no light that can compare with the powerful, steady white light of the Aladdin. Safe, durable and economical, beautiful in design, no noise, no odor. Women and children can operate it. You can't appreciate the great difference between the light of this lamp and the common kerosene lamp 'till you see it. It has all the good qualities of the high priced system but with the advantage of being as simple as the ordinary coal oil lamp.

Let Us Demonstrate It To You

You'll never want to go back to the dingy, reddish, flickering light of your old style lamps. You can have the most cheerful and best lighted home in your neighborhood by getting an Aladdin Mantle Hanging Lamp.

MANDAMUS IS QUASHED

(Continued from page three)

We have no quarrel with the recall if the people of Brainerd or the state want it. Let them have it, but do not read it into their organic law in this vicious manner until they signify their desire therefore. We have here a mandatory demand for the council to conduct an expensive proceeding without any suggestion as to who is to bear the expense.

Relators make no offer to secure the cost thereof if the matter is resolved against them and do not want the city attorney to either prosecute the charges or advise the council as to admissibility of testimony. This means the employment of two special attorneys, a stenographer must be employed and witness fees paid. Is it in the interests of the people's welfare that this must be done, not once, but every time some citizen from perhaps personal or political malice, says it should be done?

As a parting reason why the allowance of this writ is not in accordance with the reasons of sound public policy, we submit that a vicious political weapon could be made of it. Between the advocates and opponents of the recall today, many reasons are advanced for and against the measure, and even among the most enthusiastic adherents therein are found widely different opinions as to the per cent that should be required to install the recall.

Here we have the most vicious species of the recall with no limitation of the number required to institute the same. If officers are standing for re-election or re-appointment, what an easy matter just before election to institute charges with no idea of ever having such charges heard and determined, and after the mischief was done, dismiss the same. If the relators have the right to institute such proceedings, clearly they have the same right to dismiss.

Does not the record show affirmatively the council has already passed on the very matter it is here contended they should be compelled to pass on again?

In no place does the record even

contain a suggestion that there was any new matter for the council to consider, but fully and clearly shows it was to only thresh the matter all over again and strange as it may seem the trial court, judging from the memo alone, wholly failed to touch on this vital phase of the matter.

We therefore respectfully submit that a governing body vested with the power of removing officers need not at the instance of private citizens proceed to hear and determine charges formulated and preferred by citizens, and further, the record herein affirmatively shows the council has already been put in motion and has determined a discretionary matter.

It may be of interest to know that the attorney general's office at the time of the incumbency of Hon. Geo. T. Simpson, gave an opinion diametrically opposed to this decision of the state supreme court.

DEATH OF OLD RESIDENT

John W. Bouck, aged 76, of Long Lake Township, Died of Paralysis this Morning

John W. Bouck, aged 76, for thirty-three years a resident of Crow Wing county, died this morning at eleven o'clock of creeping paralysis. He was a widely known farmer and a very successful man in his chosen pursuit, having a fine farm in Long Lake township.

He leaves a wife and three children who are Henry M. Bouck, John W. Bouck and Mrs. Joseph Rosko.

The funeral will be held on Monday morning from St. Francis Catholic church, Rev. Father J. J. O'Mahoney officiating.

Beware of Ointments for Catarrh that Contain Mercury
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. PLAN A METHODIST CHURCH AT BARROWS

Rev. Elbert E. Satterlee at Barrows
Saturday Examining Lots Donated by Townsite Co.

TO BUILD EARLY IN THE SPRING

First State Bank of Barrows a Prosperous Institution as Shown by First Statement

Barrows, Minn., April 18—Rev. Elbert E. Satterlee, of Brainerd, was at Barrows Friday looking over the lots the townsite company has donated for a church. Rev. Satterlee was very much pleased with the location and it is expected to commence buildings operations this spring.

The First State bank of Barrows has published its first statement and the figures show a gratifying amount of business done. The deposits are daily increasing and every pay day sees them increase. Many farmers in addition to mining men and business men, are being added to the list of depositors.

Mrs. Marcus Grande, at Northwest hospital in Brainerd, gave birth to a baby boy Thursday evening.

R. C. Klunkenberg, cashier of the First State bank, has received a fine saddle horse.

Richard Bergum, the real estate man, reports the sale of several residence lots and has a good many inquiries for business lots.

Fires have been raging close to the town for several days, but good, hard fighting on the part of the people extinguished them.

R. M. Mason of the Mason Cedar Co., of Palisade, was in town Tuesday. Mr. Mason will soon have his lumber yard established in Barrows.

J. C. Pearson, of Duluth, was in town Tuesday looking for a location for a meat market.

Work on the new Peck building is progressing nicely.

The work of grading the several streets will be commenced next Monday. Levi Bailey will superintend the work.

BOHN SYPHON REFRIGERATORS

Are used by the largest hotels and railroads in the country because they represent the most perfect system of refrigeration on the market. The insulation and circulation of air prevents all bad odors etc. that are commonly so objectionable. The construction is entirely original, the interior being made of solid white porcelain which retains the cold air longer than any other material, and the exterior is finished in beautiful quarter-sawn oak. We have refrigerators for all sizes of hotels and homes and as we priced them low as \$11 and as high as \$45, we can show something to satisfy everyone. The next time you are down town let us explain this wonderful refrigerator to you.

DEFERS ACTION
ON LAND BILLSCalifornia Legislature Awaiting
Developments.

WILL PROTECT EUROPEANS

Poll of State Senate Shows Over-
whelming Majority in Favor of an
Anti-Alien Land Holding Enactment,
but No Disposition to Have Its Pro-
visions Affect Any One Eligible to
Citizenship.

Sacramento, Cal., April 19.—Further action on the anti-alien land bills pending before the California legislature has been deferred until next week. This decision was reached, it was said, because some word was expected from Washington in relation to the protest of the Japanese government against possible infringement of the treaty rights of Japanese citizens in this state.

Reports of the popular agitation in Japan over the proposed action in California provoked considerable comment about the legislative chambers. The violence of these protests, as well as the inquiries as to the effect of the proposed bills on other alien interests in California, led to the belief here that President Wilson might find it expedient to indicate his views or suggest a course of action tending to relieve the situation.

A poll of the senate disclosed an overwhelming majority in favor of an anti-alien bill, but scarcely a handful of senators indicated a wish to include in its provisions foreigners or foreign corporations controlled by persons eligible to citizenship. The campaign in behalf of European investments in the state, it was stated, had begun to be reflected in the change of opinion among individual members in this regard.

According to Senator Thompson, who drafted the original bill submitted in the senate, the only bill acceptable to the Japanese would be one placing all aliens on a par. A poll of the house shows that such a law could not be passed.

In case no word comes from Washington it is regarded as certain here that a law directed almost solely against the Japanese will be passed, with clauses exempting all European corporations. Only seven members of the senate have declared themselves against such a bill.

WILSON WATCHING EVENTS

President in Close Touch With Japanese Situation.

Washington, April 19.—President Wilson kept in close touch with the situation both in Japan and California over the proposed alien land legislation.

The president told his callers that the federal government must of necessity refrain from interference with California while in the process of legislation and cannot make its attitude known to inquiring nations until the bills were passed. It is unlikely that the president will communicate his views directly or take any step that will interfere with the legislative process, but he hopes through members of congress here to do his utmost to prevent any obvious violation of treaty obligations.

Should treaty rights be violated he is hopeful that Japan will withhold judgment until the American courts have dealt with the question.

The federal government fully intends to give Japanese residents every protection and privilege accorded foreigners under the favored nation principle of its treaties.

GIRL SOLD IN MARRIAGE

Mere Child Says Her Father Bartered Her Away.

Wilmington, Del., April 19.—A fifteen-year-old girl, Teresa Sasso, complained to the Wilmington police that her father had sold her in marriage, taking a sum of money from Antonio Cottillo in her presence, and that her father compelled her to go through a ceremony. The chief of police said he had ascertained that Cottillo had paid the father \$130. The case was laid before Attorney Wolcott, who directed that the girl be sent to an institution pending his application for an annulment of her marriage. The girl and Cottillo were married about a week ago.

MAY CLOSE LAND OFFICE

Instructions to Hold No Hearings in Fargo Later Than June 30.

Fargo, N. D., April 19.—A telegram to the local land officials from the general land office at Washington instructed them not to set any hearings of contests later than June 30.

This is construed as meaning that the office is to be permanently closed on that date.

Democrats have abandoned hope of getting two tiers of townships cut off the Bismarck district and are now endeavoring to have this district combined with the Devils Lake district instead of with Bismarck, so the Devils Lake office can be maintained four years or more.

There is much unfinished business in this district, but only about 1,500 acres of land left. None is desirable for entry.

O. W. UNDERWOOD.

Will Have Charge of
Tariff Bill in House.

Copyright by Harris & Ewing.

IN HOUSE NEXT WEDNESDAY

New Tariff Bill Expected to Be Brought Up.

Washington, April 19.—The tariff revision bill, pressed rapidly in the Democratic caucus of the house, was considered simultaneously by a conference of the Republican representatives who agreed to propose amendments, and Democratic Leader Underwood predicted the bill would be brought up in the house next Wednesday.

In the Democratic caucus the ways and means committee majority was sustained at every point during a series of fights over proposed amendments to the income tax, the only important change being by acquiescence with the committee to strengthen the provision exempting life insurance policies. The \$4,000 exemption and graduated scheme of income taxation running up to 4 per cent on \$100,000 or more was retained intact.

The house Republicans, in an open conference, endorsed the proposed amendment to the bill that would provide for a tariff commission.

INDIAN SLAYS WIFE
AND MOTHER-IN-LAW

Winds Up His Gun Play by Committing Suicide.

Rapid City, S. D., April 19.—As they were leaving their home on the Pine Ridge agency to come to this city, Betty, wife of Jacob Arrow Boy, and her mother, Sally Two Shoes, were shot and killed by the former's husband, who afterwards killed himself.

Arrow Boy had an altercation with his squaw a short time before the shooting which resulted in his starting for Chadron, Neb., to secure a divorce. At Chadron he was arrested for stealing the horse he was riding. As the sheriff was about to place the Indian in jail the latter whipped out a gun and soon had the sheriff securely locked behind his own bars.

Arrow Boy then sped back to the reservation and sought out the tepee of his wife and mother-in-law, Sally Two Shoes, and divorced himself with the aid of his six-shooter.

After killing the women he took a shot at an Indian boy who chanced to be standing near and who had witnessed the double murder. He then proceeded to the tepee of his uncle, who upbraided him, and the gun was again brought into play. The uncle escaped the shots and under cover saw Arrow Boy go behind some bushes and kill himself.

WILL BE TRIED FOR MURDER

Bank Clerk Held on Charge of Killing Cashier.

Washburn, N. D., April 19.—William T. Anderson, clerk of the First National bank of Washburn, was arraigned before Karl Klein, justice of the peace, on a charge of murder in the first degree in connection with the shooting of Franklin E. Funk, cashier of the bank in which he was employed. He waived examination and was remanded to the custody of Sheriff Simon until his case is called before the district court in June. He was not admitted to bail, under the provisions of a North Dakota statute relating to prisoners whom it is possible may be convicted by a jury for murder in any degree, or manslaughter. Anderson will remain a prisoner in the McLean county jail for the intervening two months.

The affairs of the bank have been found to be in excellent shape. August E. Johnson has been named temporary cashier by the directors.

TO NAME BUTTER PRICES

Elgin Board Hit by Milwaukee Produce Exchange and Dealers.

Milwaukee, April 19.—The Milwaukee Produce exchange announced that it will make its own prices on butter, instead of adhering to quotations of the Elgin butter board.

Milwaukee commission dealers declare that hereafter they will pay the prices that conditions warrant, instead of holding to Elgin standards.

TARIFF BILL MAY
BE PASSED INTACTUnderwood Possibly Can Hold
It Together.

"GAG RULE" WOULD DO WORK

Although Much Denounced, It Really Is an Effective Instrument for Preventing Alteration or Amendment of Important Measures—Public Will Not Care How Trick Is Done.

By ARTHUR W. DUNN.

Washington, April 19.—[Special.]—If Chairman Underwood should get a caucus endorsement for his tariff bill, with practically an ironclad agreement that the bill shall go through unamended, the next step will be to prevent votes on amendments which would embarrass individual Democrats of the house.

For instance, many Democrats would be compelled to vote for protection on this and that in their different districts, but if a "gag rule" should be adopted, cutting off all opportunity for amendments, they could vote for the bill as a whole and tell their people there was no help for them—that they could not do anything else.

The much denounced "gag rules" are really safety valves for those who want to remain with the party, but who would be compelled to go astray on certain amendments, and for that reason it is quite probable that Underwood will be able to put through some resolution which will keep his bill intact and give neither Democrats, Republicans nor Progressives an opportunity to amend.

People Will Not Care.

The people will not care how the thing is accomplished providing what is done suits them. As long as the Republicans were in power and passed legislation that the people wanted it made no difference how it was put through, whether under liberal debate or by "gag rules." It was when "gag rules" and Cannon methods were used to put through a measure like the last tariff act, which the people did not want, that an outcry was made against "Cannonism" and house methods.

But the same methods must always be used by the majority party, either in one form or another. In the last congress the separate tariff bills were first endorsed by the Democratic caucus and a binding agreement made that they should not be amended. That agreement was carried out. Either by a rule or an agreement Chairman Underwood can accomplish the same result with his present tariff bill.

Farm and Orchard Birds.

Frequently the agricultural department makes a ten strike in regard to a government publication. There was the horse book, which helped to add luster to the fame of Uncle Jerry Rusk more than twenty years ago. Recently the department issued a book on "Fifty Common Birds of the Farm and Orchard," telling how the birds aided the farmer. Senator Martine of New Jersey called attention to it by trying to have 1,000 copies printed for each senator and telling how great had been the demand for them. The watchdogs of the printing office would not consent to have the printing done for the present. But in time the demand for the book will force them to consent.

"He's No Hermit."

After President Wilson had called at several places, read his message to congress, visited the senators and talked tariff to them, attended baseball games and was a prominent guest at the Gridiron dinner and had walked about the parks for exercise he merited the remark of an old employee near the White House. "He's no hermit, you bet!"

An Editor Who Can Talk.

It has always been asserted that editors are not talkers, but such is not the case in regard to Editor Daniels, now secretary of the navy. Daniels learned the game of talk long ago, finding that it was often necessary to express himself orally as well as editorially. In the political fights he had in North Carolina the vigorous editorial utterances were not sufficient. There were times when he wanted to make the people hear what he had to say. When speaking for the navy he makes good.

Debate Behind Closed Doors.

Debating the tariff behind closed doors, with no opportunity to get the speeches in the papers nor in the Record, comes under the head of cruelty to congressmen, but Oscar Underwood concluded that the only way to have his tariff bill endorsed by the caucus was to keep the Democrats right down to business without giving them any opportunity for playing to the galleries.

Baseball and Congress.

Many congressmen are taking comfort out of the fact that the baseball season will relieve the tedium of tariff talk when the bill gets before the house. More particularly will this be true when the bill goes to the senate, where it will have a much longer period of consideration. As long as the committees are not appointed there will be no special effort to take up the business of the session outside of the tariff save those appropriation bills which failed last winter. There is still talk about currency legislation, but that has not been considered as real pressing at this time.

The Pig.

"How is a pig different from every other animal?" "It is first killed and then cured."

POPE PIUS X.

Pontiff Is Making Rapid
Progress Toward Recovery.

MRS. STORY IS PRESIDENT

Chosen Head of the D. A. R. on the Third Ballot.

Washington, April 19.—Mrs. William Cummins Story of New York, head of the conservative faction, was elected president general of the Society of the Daughters of the American Revolution, defeating Mrs. John Miller Horton of Buffalo, the administration candidate, on the third ballot. The vote stood Mrs. Story 600, Mrs. Horton 449.

Seven vice presidents general also were elected: Mrs. Thomas Kite of Ohio, Mrs. Rhett Goode of Alabama, Mrs. John Swift of California, Mrs. Allen P. Perley of Pennsylvania, Mrs. Ben F. Gray, Jr., of Missouri; Miss Harriet I. Lake of Iowa, and Mrs. John Lee Dinwiddie of Indiana.

When the result of the third ballot was announced the successful candidate was escorted to the platform. She made a plea for harmony and urged all the new general officers to do their utmost to bring peace between the factions that have waged an almost continuous warfare for the last five years. The new general officers and all pledged their support to Mrs. Story.

BRYAN AND CLARK
ONCE MORE FRIENDSSettle Difference Which Arose
at Baltimore Convention.

Washington, April 19.—Champ Clark and William J. Bryan have wept on each other's shoulder and made up. After elaborate negotiations covering several days the two were brought together at a luncheon for the first time since the falling out at the Baltimore convention, which resulted in the overthrow of the Clark boom and the nomination of Woodrow Wilson. The two clasped hands, broke bread together and issued statements.

The Bryan statement is plainly apologetic. The secretary of state says in effect:

"You were all right, Champ; it was the company you were keeping that I objected to."

The speaker in his statement concedes nothing except that Mr. Bryan now has done all that he can to repair the injury inflicted at the Baltimore convention.

The harsh feeling between Clark and Bryan has been one of the danger spots in the Democratic situation. The speaker came out of the Baltimore convention avowing that he would never again have anything to do with Colonel Bryan. Clark, on every occasion, showed his bitter feeling toward the commoner. No sign of recognition passed between the two at the inauguration when they sat only a few feet apart at the ceremonies.

KILLS HERSELF AND CHILD

Women Spends All Except 1 Cent of Baby's Funeral Suit.

Chicago, April 19.—A woman who registered at a downtown hotel as Mrs. R. C. Davidson of Belgrade, name of state not given, spent all except her last cent to purchase a white suit for her baby's funeral, took the child upon her knee, rocked him to sleep while two gas jets, opened wide, slowly asphyxiated them.

The bodies were found when the door of the room was forced.

Radium.

Only about one-third of a grain of radium is produced from a ton of ore.

RAPID PROGRESS

HOLDS DOWN ITS EXPENSES

Minnesota House Spending Less Than Two Years Ago.

St. Paul, April 19.—Expenses of the house of representatives will be \$25,710 less for the 1913 legislature than in 1911, according to Kerry Conley of Rochester, chairman of the legislative expense committee.

In a report submitted Mr. Conley shows that the present house has spent only \$5,011 for supplies against \$20,490 in 1911, \$737 for furniture at the present session compared with \$2,180 two years ago and \$572 for committee visits to state institutions against \$1,453 two years ago. The total cost is \$169,247 against \$194,958 in 1911.

Representative J. W. Wilson's bill establishing a state minimum wage commission to provide for the determination and establishment of minimum wages for women and minors was passed by the senate by a vote of 42 to 2.

The senate elections committee bill providing for the election of United States senators by a popular vote passed the senate without a dissenting vote.

IN MEMORY OF PAUL REVERE

Patriot's Descendant Hangs Lantern in Old North Church.

Boston, April 19.—Miss Pauline Revere hung a lantern in the belfry tower of the Old North church in observance of the midnight ride of her famous ancestor 138 years ago.

Miss Revere, who is only fourteen years old, took part in exercises held at the historic church in celebration of the eve of the battle of Lexington. Longfellow's poem, "Paul Revere's Ride," was recited by Professor Charles T. Copeland of Harvard. Bishop William H. Lawrence spoke on the significance of a peaceful patriots' day and the church bells pealed out patriotic tunes. Officials of the state and city joined in the observance.

Old Time Astronomers.

Astronomical observations were carried on in China so long ago as the year 2352 B. C.

General Condition of His Holiness Very Favorable.

NO FEVER FOR THREE DAYS

Should Present Conditions Continue for Two More Days the Pontiff Will Be Considered Convalescent and the Physicians' Bulletins Will Be Discontinued — Pessimistic Persons Shake Their Heads Dubiously.

Rome, April 19.—The news that emanated from the Vatican was that Pope Pius had passed three days without fever, that his general condition was progressing favorably and that if these conditions continue for two days more his holiness will be considered convalescent and the bulletins of the physicians will be discontinued.

Although this information came from the physicians and was confirmed by Cardinal Merry del Val, the papal secretary of state, it did not prevent persons of pessimistic tendencies from continuing to shake their heads dubiously and inventing ailments for the pontiff. They declared he was suffering from puffy pneumonia and consumption.

Professor Ettore Marchiafava, the pope's chief physician, was asked concerning the condition of his patient. In writing he replied:

Heart and Pulse Strong.

"The holy father has suffered from influenza, with a slight affection of the trachea and larger bronchial tubes; broncho-pneumonia has never even been suspected. I have never doubted for his recovery, sooner or later. His general condition always has been of the best. His heart and pulse are strong and normal and the sensorial nerves intact."

It must be added, however, that although all Professor Marchiafava says in his statement may be perfectly true, another affection exists which is not in an acute stage now, but is always liable to recur. This is a gouty kidney.

The better condition of the pope is shown by his increasing interest in affairs. He insisted on conveying his last instructions to Cardinal Ferrata, who left for Malta to preside at the Eucharistic congress. He also desired to know what arrangements had been made concerning the pontifical mass which he was to celebrate in St. Peter's on Pentecost Sunday, three weeks away.

WOODMEN MEETINGS DATED

Secession Plans to Be Discussed in District Conventions.

St. Paul, April 19.—Conventions of Modern Woodmen, to meet by congressional districts in Minnesota to consider withdrawing from the parent order and setting up an independent order in Minnesota under the O'Neill bill, recently passed, have been called by J. L. Sundeen and other "insurgent" leaders. The convention dates have been set as follows: First district, Rochester, May 19; Second district, Windom, May 21; Third, Fourth and Fifth districts, Anoka, Isanti, Sherburne, Meeker and Wright counties, Minneapolis, May 28; Sixth district, Little Falls, June 2; Seventh district, Granite Falls, May 26; Eighth district, Duluth, June 9; Ninth district, Detroit, June 4.

BANKER FOUND GUILTY.

Bellingham, Wash., April 19.—Jacob Furth, chairman of the board of directors of the Seattle National bank, who was charged with aiding and abetting William E. Schrieker, former president of the La Crosse private state bank, in accepting deposits, knowing the bank to be insolvent, was found guilty by a jury in the superior court.

Hagenbeck Snake Victim.

Hamburg, Germany, April 19.—Slow working snake venom was the cause of the death of Karl Hagenbeck, the animal collector, on April 14, according to the physician who attended him. He was bitten seven years ago and the venom eventually effected his liver.

MAY CURE PNEUMONIA.

New York, April 19.—A new method of treatment aimed to cure pneumonia is under experiment at the Rockefeller institute, it was announced by Dr. Clarence A. McWilliams, a physician who has worked in collaboration with the medical investigators at the institute. The announcement of a positive cure was not warranted, Dr. McWilliams said, but improvement in pneumonia cases under the new treatment has been noted.

Anderson-Erickson
Simon Anderson and Miss Esther
Erickson were married at two o'clock
this afternoon at the parsonage of the
Seventh Street Norwegian Lutheran
church, Rev. M. L. Hostager perform-
ing the pleasing ceremony. The
bride wore a handsome gown of cream
colored serge and carried a bouquet
of flowers. She was attended by the
groom's sister, Miss Clara Anderson.
The best man was Severn Antonson.
Mr. Anderson is a machinist em-
ployed at the shops and is well known
and well liked by all his associates.
The bride has a large circle of friends.
They left this afternoon for Cloquet
where they will visit relatives. Re-
turning, they will make their home
in Brainerd.
The Dispatch joins their many
friends in wishing them all possible
happiness and prosperity.
On Thursday evening the bride
and groom-to-be were entertained at
the home of Mrs. Albert Bacon, where
a party was given in their honor.
Friends presented them with a fine
rocking chair. The Bacon home was
beautifully decorated for the occasion,
the prevailing colors being cream and
lavender. A luncheon was enjoyed
by the twenty or more people present.

Coughs and Consumption
Coughs and colds, when neglected
always lead to serious trouble of the
lungs. The wisest thing to do when
you have a cold that trouble you is to
get a bottle of Dr. King's New Dis-
covery. You will get relief from the
first dose, and finally the cough will
disappear. O. H. Brown, of Musca-
dine, Ala., writes: "My wife was
down in bed with an obstinate cough,
and I honestly believe had it not been
for Dr. King's New Discovery, she
would not be living today." Known
for forty-three years as the best rem-
edy for coughs and colds. Price 50c
and \$1.00. Recommended by H. P.
Dunn.—Adv. 11

of Running Only Independent
Pictures

Paul Perkins has sold his interests
in the Grand theater to Clyde Parker
take possession on Monday.
and Eugene McCarthy and they will
Mr. Parker is a prominent business
man of the city, being the secretary
and treasurer of the Parker & Topp-
ing foundry company. Mr. McCarthy
has been in the show business for
years, conducting moving picture
shows at Dickenson, N. D., Missoula,
Mont. and Wallace, Idaho. He is a
singer gifted with a very sweet voice.
Mr. McCarthy, however, will not
give up his insurance business, carry-
ing on that branch in addition to
his work in the moving picture line.
The policy of the house will not be
changed and only independent
pictures will be shown. The Grand
is one of the handsome theaters of
the city and all are assured that the
young men having it in charge will
make a success of their venture.
Mr. Perkins has made many
friends in his year's stay in Brainerd
who will be sorry to see him go,
leaves for Pine City where he will
go in the hardware business with the
Smith Hardware company. Brainerd
residents regret exceedingly to lose
two such pleasant people as Mr. and
Mrs. Perkins and they wish them
all possible success in Pine City.

BIG SALE CONDUCTED
Power Plant Sells for \$33,326.26 at
Sheriff's Sale Held This
Morning

The gas producer power plant of
the National Heat, Light & Power
company went under the hammer
this morning and at a sheriff's sale
held at the court house and conducted
by Deputy Sheriff Claus Theorin,
\$33,326.26 was bid by Guy P. John-
son of Minneapolis, and the plant,
real estate and all equipment was
sold to him. Louis Severance, of
Minneapolis, receiver of the com-
pany, was in attendance at the sale.
This, by the way, is the biggest
sale ever held in the annals of the
sheriff's office.

For Burns, Bruises and Sores
The quickest and surest cure for
burns, bruises, boils, sores, inflam-
mation and all skin diseases is Buck-
len's Arnica Salve. In four days it
cured L. H. Haffin, of Iredehl, Tex., of
a sore on his ankle which pained him
so he could hardly walk. Should be
in every house. Only 25c. Recom-
mended by H. P. Dunn.—Adv. 11

WASHOTINT
Washotint is a perfect, flat,
sanitary, washable coating for
producing on interior walls and
ceilings, soft, beautiful tints that
lend an artistic air to the sur-
roundings.
It is becoming more and more the
fashion to tint walls in soft flat
tones, but in getting this result use
Washotint, which will not spot every
time water splashes on or touches it,
as is the case with cold water or
kalsomine paints.
The surface produced with Wash-
otint is non-porous, non-absorbent
and hard, and it is both sanitary
and cleanly.

DON'T MISTAKE THE CAUSE
Many Brainerd People Have Kidney
Trouble and Do Not Know it
Do you have backache?
Are you tired and worn out?
Feel dizzy, nervous and depressed?
Are the kidney secretions irregu-
lar?
Highly colored; contain sediment?
Likely your kidneys are at fault.
Weak kidneys give warnings of
distress.
Heed the warning; don't delay—
Use a tested kidney remedy.
Read this testimony from Brain-
erd.

Anthony Miller, 913 Seventh St.
S. Brainerd, Minn., says: "There
was much lameness across my kid-
neys and I also suffered constantly
from backache. I tried most every
remedy that was brought to my at-
tention but nothing helped me until
I used Doan's Kidney Pills, pro-
cured at H. P. Dunn's drug store.
They strengthened my back, re-
moved the lameness and thus made
it possible for me to get my proper
rest. I know Doan's Kidney Pills to
be good for kidney complaint."
For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,
New York, sole agents for the United
States.
Remember the name—Doan's—
and take no other.

MANDAMUS IS QUASHED

Supreme Court Overrules Stanton and Petition of Schwartzkopf and Sheets Denied

VICTORY FOR CITY COUNCIL

Question Involved Affects Not only Brainerd, But Every City In the State

Important to every municipality in the state of Minnesota is the decision just handed down by the state supreme court in the case of State of Minnesota, ex rel Hugo Schwartzkopf and R. M. Sheets vs the City Council of Brainerd, for it settles a question in American jurisprudence never passed on by any court before, that of citizens petitioning for a redress of grievances.

The syllabus of the state supreme court says: "Section 12 of the city charter of Brainerd imposes no duty upon the city council to entertain and hear a petition filed by citizens and taxpayers, whether specially interested or not, preferring charges against city officers and demanding their removal; and hence an alternative writ of mandamus to compel the council to fix a time and place for a hearing upon charges so preferred was demurrable."

M. T. Dunn, president of the water and light board, will not have to stand trial by the council on charges preferred by Messrs. Schwartzkopf and Sheets. The court holds in an opinion by Justice Philip E. Brown, that the city charter imposes no duty on the council to entertain and hear petitions filed by citizens, preferring charges against city officials. Hence an alternative writ of mandamus to compel the council to fix a time and place for a hearing on the charges so preferred was demurrable.

In the brief filed by City Attorney M. E. Ryan, who was the attorney for the city council, is given a history of the case. In December 1911 the city council of the city of Brainerd, through a committee of its members upon the petition of one of the relators and others commenced an investigation of the management and books of the water and light board of Brainerd. This committee made its report to the council, and thereafter the council as a whole, upon the request of the petitioners in that proceeding heard certain oral testimony taken under oath and the council determined that no charges be

GOVERNOR VETOES MINNETTE BILL

St. Paul, April 19.—Governor Eberhart today vetoed the Minnette bill placing the regulation of telephone companies in the hands of the state railroad and warehouse commission. He also reiterated his former declaration that he would call an extra session to secure the enactment of a satisfactory public utilities bill.

preferred against any city official involved in the investigation.

Thereafter and in September, 1912 the relators in this proceeding filed with the city council a petition demanding that the city council pursuant to section 12 of the city charter above mentioned "shall proceed forthwith to remove the said M. T. Dunn from office as president of the water and light board and declare such office vacant."

The council declined to do so and adopted a resolution concisely reciting the history of the matter and thereafter these relators sued out an alternative writ of mandamus requiring the council to fix a time and place for a hearing of the charges preferred against M. T. Dunn or to show cause why.

The respondents moved to dismiss the order to show cause and quash the alternative writ, and also filed a demurrer to the writ. Judge C. W. Stanton, of the district court, heard the matter on October 12 and on November 27 filed an order denying the respondent's motion and overruling the demurrer from which this appeal was taken.

There are two general questions involved in the appeal to the state supreme court:

Must a governing body vested with the power to remove officers proceed to hear charges formulated and preferred by private citizens?

Does not the record show affirmatively the council has already passed on the very matter it is here contending they should be compelled to pass on again?

In the absence of statutory requirements the common law rule that charges should be formulated and preferred by the sovereign applies.

Since the charter provision does not "specifically enjoin" the governing body so to do, it is therefore a discretionary matter and the relators have no "clear legal right" to the same.

For reasons of sound public policy, governing bodies should not be compelled to hear charges formulated and preferred by private citizens.

The city council of Brainerd consists of ten aldermen elected from five wards for two years and each receives a salary of \$50 a year. The council holds two regular meetings per month and many special meetings during the year and much time is given by them in committee work. The council is composed of men very much the same as in other cities of Brainerd's size. Some being men of large business interests, others men depending on their monthly wage, but all appreciating their duty to the public and willing to devote time and energy to the public interests. If councilmen must leave their various vocations and sit session after session as they did in this matter to hear matters that come to naught, it will inevitably deter fit men to hold such office. In the taking of the oral testimony in the preliminary session, some ten sessions were held by the council as a whole and something like 250 pages of testimony taken. Besides the council committee held innumerable meetings.

Now, if the council, the people's chosen representative, cannot determine in the first instance whether or not charges should be preferred, but this lies wholly in the mind of some disgruntled and dissatisfied citizen, how will it be possible to get fit men not only for the water and light board, but for other non-salaried boards who perform governmental and business functions for the city.

A person accepting such an office may rely on the judgment of ten men to say whether or not, he shall be charged with official wrong doing, but would not want that question left to the whim of every dissatisfied citizen and be put in a position of having his character and reputation besmirched and to the expense of defending as many separate accusations as there might be ill-advised and evil-minded citizens. If it is to be held a private citizen has the right herein invoked, where may it end?

The council if required to do so in one case, must of course, do so in all cases and it may well come to the point where the council will be required to give such matters time and attention to the exclusion of other important and necessary municipal affairs. It is no answer to say that such a condition is improbable.

Once open the door by making it the law of this state with the present inclination to muck-rake officials and no one can say where it will end.

The question involved herein affects not alone the people of Brainerd but probably every city in the state. The writer ventures to say there is not a single city in the state that its charter does not contain some such provision as is herein considered.

Many of the cities have the same provisions, word for word, adopted many years ago before the recall was heard of by any, except close students of government, and it is at least illogical to say that people in adopting charters ever contemplated such an innovation as is herein suggested.

DEVELOPMENTS OF WEEK ON RANGE

Judge G. W. Holland, Henry Rosko and Fred M. Koop Lessors of Leases to

BRAINERD-CUYUNA MINING CO.

Big Ore Strike West of Mississippi River on Dr. James L. Camp Farm

The strike of the underground miners on the Cuyuna iron range has caused one result which the miners never anticipated and that is the impetus given to the development of properties adaptable to pit mining or stripping and the conversion of shaft mines into stripping propositions. For instance, at the Thompson mine of the Inland Steel Co. at Crosby, ore has been found 40 feet from the surface and the shaft mine could be easily converted into a pit mine, thus materially lessening the expense of operation and maintenance. The hydraulic mine of the Pittsburgh Steel Ore Co. in section 17 west of Ironton and near Little Rabbit lake is an example of the cheapest method ever employed to remove the overburden. Electrically driven pumps, two 2,000 gallon pumps and a 3,000 gallon sand sucker do the work of stripping and when that part of the program is finished the steam shovels will do the rest. The property in section 13, township 45, range 30 near Loerch on the Northern Pacific railway, which has been proven by the Longyear Exploration Co. of Minneapolis, may also be another huge stripping proposition covering three forties. Whatever labor differences the range may have at this stage do not affect the fact that the ore is on the range and that it will be mined in one way or another.

A big ore strike has been made west of the Mississippi on what is popularly known as Dr. J. L. Camp's Mission farm where R. J. Whiteside, of Duluth, has two drills in operation. Eighteen holes sunk have proven up a good quality of ore. Of this tract 400 acres in section 3, township 145, range 27 were sold by Dr. Camp and an option was given to explore 600 acres in sections 4 and 9, township 135, range 27. The latter piece of property lies near the Mississippi and on it are located many of the farm buildings. The drills commenced operating in February.

The Hale-Bradley Exploration Co. of Deerwood has moved a drill to the southwest quarter of section 12, township 45, range 30 on lands owned by William J. Schwab of Minneapolis, James T. Hale, Paul M. Hale and Wilson Bradley of Deerwood. A. J. Harker is again drilling at the Wolfert place at Island Lake.

Three new drill outfits have been bought by the Potts Exploration company of Deerwood and put on the range. Drilling at June lake was finished a few days ago.

The water has been about cleared from the Barrows mine of the Virginia Ore Mining company at Barrows and mining is about to be resumed.

The Adams mine at Oreland has a surface crew at work and Contractor Buzzo, of Eveleth has a crew engaged in sinking.

The Pennington mine has two shovels at work. Four trains of six dump cars each are engaged in hauling away the overburden. A very good showing is being made here and there is no interruption in work, day and night shifts being employed. The mine will be a big shipper this season.

The Cuyuna-Duluth Iron Co. mine at the north end of the Ironton townsite is down 190 feet. Two boilers are on the ground. Contractor C. B. Rowley, of Brainerd, has finished the cement foundations for the boiler and engine houses. Cement piers are in position for the head frame. A railway spur has been built to the mine. Cuyuna-Duluth and Cuyuna-Mille Lacs stockholders and officers visited these mines Sunday. The Cuyuna-Mille Lacs mine is shipping ore in growing quantities.

Fred W. Cram, formerly superintendent of the Thompson mine, has gone to Douglas, Arizona as engineer of a smelting company.

R. L. Kilpatrick, formerly the Crosby superintendent of the Inland Steel company, is now located at Coppermount, Alaska and is looking after the interests of George H. Crosby in that vicinity.

J. P. Matthews, master mechanic of the Rogers, Brown Ore Co., has perfected an improved pump valve which effects a considerable saving in rubber packing.

Dale & Bumgardner, of St. Paul, are reported to have the contract to build a belt line of the Northern Pacific railway extending from Cedar Lake to Deerwood, to Loerch and Ironton and Cuyuna. A steam shovel and construction outfit is reported to be quartered at Cedar Lake.

The Gopher Iron company was recently organized in St. Paul. At the head of this company is Frank E. Oberg, of Deerwood, one of the best posted men on the Cuyuna iron range, a pioneer acquainted with every step in the development of the range. He has been active in the formation of the company whose stockholders include some of the most prominent land men of the northwest. The company will operate and explore lands and is acquiring options. It has taken over a lease in the west half of the southeast quarter of sec-

tion 19, township 46, range 29, which has been partly explored and contains a nice body of ore. This is a part of a large body of ore which is owned by the Adams Investment company and as the surface is only from 35 to 50 feet it is an admirable stripping proposition.

The Gopher State Mining company has been organized with a capital of \$250,000 by William C. White, James T. Hale and Paul M. Hale, of Deerwood. Attorney White formed one of the first successful mining companies of the Cuyuna range. Judge James T. Hale is a former Duluthian and prominently identified with the development of the mining industry. His son, Paul M. Hale, is well known in the mining world.

Arthur Dougherty has given an option to purchase to Joseph Weinberg and J. J. Robinson for a term of one year on the northwest quarter of section 29, township 44, range 31 and lot 7 of section 29, township 44, range 31, the price being \$2,000. Dougherty has a reservation to the effect that 10 cents a ton royalty is to be paid on a minimum tonnage of 5,000 tons the first year, 5,000 tons the second year, 15,000 tons the third year and 20,000 tons the fourth year and every year thereafter.

Joseph Rosko has given a 50 year lease to the Brainerd-Cuyuna Mining company for which \$500 was paid down. The property covers the southwest quarter of the northeast quarter of section 36, township 45, range 31 and is a tract of 18 acres. The royalty is to be 25 cents a ton and at least \$1,500 is to be paid in royalties each year. Should it be necessary to displace the farm buildings, then \$1,000 is to be allowed for the house, \$1,500 for the barn and \$75 for the milk house. The property is located in Southeast Brainerd within the city limits.

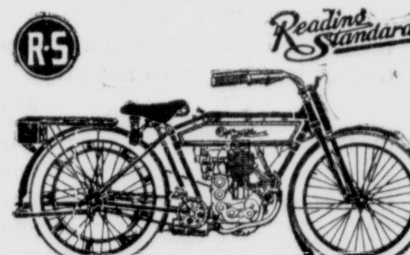

A 50 year lease has been given by Judge George W. Holland, of Brainerd, to the Brainerd-Cuyuna Mining company on three so-called 40 acre tracts, being the northwest quarter of the northwest quarter of section 1, township 44, range 31; the southeast quarter of the southwest quarter of section 36, township 45, range 31; the northeast quarter of the southwest quarter of section 36, township 45, range 31 and all of the northwest quarter of the southeast quarter of the same section lying west of the Northern Pacific railway tracks. The royalty is 25 cents a ton. During the first three years of the contract at least 5,000 tons of ore are to be mined from each 40 acre tract and during each year of the term thereafter 25,000 tons is to be the minimum tonnage from each forty.

Fred M. Koop, of Brainerd, has made a 50 year lease to the Brainerd-Cuyuna Mining company at a royalty of 25 cents a ton, the property being the west five acres of the northeast quarter of the northwest quarter of section 1, township 44, range 31. For the first three years royalty is to be paid on 625 tons annually and thereafter on an annual rate of 3,125 tons.

The Minnesota Timber Land Co. has sold to Emil Oberhoffer an undivided 1-10 interest in the minerals in the northwest quarter of the northeast quarter of section 23, township 134, range 28. The same company has sold to William D. Washburn, Jr., of Minneapolis, an undivided 1/4 interest in the northwest quarter of the southwest quarter of section 26, township 47, range 29; the southwest quarter of the southeast quarter of section 27, township 47, range 29; the northeast quarter of the northeast quarter of section 32, township 47, range 29; the southwest quarter of the southeast quarter of section 34, township 47, range 29.

The Arketah Co. has sold to B. How an undivided 3-20 interest in the southwest quarter of section 23, township 47, range 29; an undivided 11-100 interest in lot 1 in section 9, township 47, range 29, and an undivided 11-100 interest in the north half of the northwest quarter of section 35, township 47, range 29. C. J. Frederickson has sold to Frank A. Lindholm the north half of the southwest quarter of section 17, township 138, range 25.

Women's Shirt Waists Extra Special at 59c

We have placed nine styles of beautiful new shirt waists in our windows and have marked them at the very exceptional price of 59c each. Not a style but would be cheap at 75c. It is a big bargain and you should see them.

House and Street Dresses Extra Special at \$1.49

Another extra value in the same window is a selection of house and street dresses which we are offering at the very special price of \$1.49. We consider these very good values at \$1.75 and \$2. These you should see—You'll not take the time to make a dress of this character if you do.

"MICHAEL'S"

A Remarkable Corset

HERE'S a wonderful new corset—the Nemo "Auto-Massage Self-Reducing."

Haven't space to describe it in detail; but the makers say that its newly-patented construction not only reduces your figure by readjustment of the flesh, but also produces a sort of massage which results in the actual removal of the surplus fat, making your figure permanently smaller.

Nemo promises are always kept to the letter. This one may seem hard to believe, but you'll find it true.

Two models. No. 353 has low, sloping bust; No. 354 has medium bust. Wonderful value at the price—\$3.50.

"MICHAEL'S"

Shrubs and Bulbs

We have in stock and ready for planting May's Northern Green Shrubbery at prices 1/2 to 2-3 less than when you order from salesmen.

Honeysuckles, large bush 60 to 75c
Hydrangea 60 to 75c
Lilacs 60c
Spireas 70c
Snowballs 70c
Peonies 70c
Roses 60 to 75c
Climater 95c

And many others. Shrubs are best of condition and will give good satisfaction.

MANDAMUS IS QUASHED

(Continued from page three)

We have no quarrel with the recall if the people of Brainerd or the state want it. Let them have it, but do not read it into their organic law in this vicious manner until they signify their desire therefor. We have here a mandatory demand for the council to conduct an expensive proceeding without any suggestion as to who is to bear the expense.

Relators make no offer to secure the cost therefor if the matter is resolved against them and do not want the city attorney to either prosecute the charges or advise the council as to admissibility of testimony. This means the employment of two special attorneys, a stenographer must be employed and witness fees paid. Is it in the interests of the people's welfare that this must be done, not once, but every time some citizen from perhaps personal or political malice, says it should be done?

As a parting reason why the allowance of this writ is not in accordance with the reasons of sound public policy, we submit that a vicious political weapon could be made of it. Between the advocates and opponents of the recall today, many reasons are advanced for and against the measure, and even among the most enthusiastic adherents therein are found widely different opinions as to the per cent that should be required to install the recall.

Here we have the most vicious species of the recall with no limitation of the number required to institute the same. If officers are standing for re-election or re-appointment, what an easy matter just before election to institute charges with no idea of ever having such charges heard and determined, and after the mischief was done, dismiss the same. If the relators have the right to institute such proceedings, clearly they have the same right to dismiss.

Does not the record show affirmatively the council has already passed on the very matter it is here contended they should be compelled to pass on again?

In no place does the record even

contain a suggestion that there was any new matter for the council to consider, but fully and clearly shows it was to only thresh the matter all over again and strange as it may seem the trial court, judging from the memo alone, wholly failed to touch on this vital phase of the matter.

We therefore respectfully submit that a governing body vested with the power of removing officers need not at the instance of private citizens proceed to hear and determine charges formulated and preferred by citizens, and further, the record herein affirmatively shows the council has already been put in motion and has determined a discretionary matter.

It may be of interest to know that the attorney general's office at the time of the incumbency of Hon. Geo. T. Simpson, gave an opinion diametrically opposed to this decision of the state supreme court.

DEATH OF OLD RESIDENT

John W. Bouck, aged 76, of Long Lake Township, Died of Paralysis this Morning

John W. Bouck, aged 76, for thirty-three years a resident of Crow Wing county, died this morning at eleven o'clock of creeping paralysis. He was a widely known farmer and a very successful man in his chosen pursuit, having a fine farm in Long Lake township.

He leaves a wife and three children who are Henry M. Bouck, John W. Bouck and Mrs. Joseph Rosko.

The funeral will be held on Monday morning from St. Francis Catholic church, Rev. Father J. J. O'Mahoney officiating.

Beware of Ointments for Catarrh that Contain Mercury
 as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and is made in Toledo, O., by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c per bottle.
 Take Hall's Family Pills for constipation.

PLAN A METHODIST CHURCH AT BARROWS

Rev. Elbert E. Satterlee at Barrows Saturday Examining Lots Donated by Townsite Co.

TO BUILD EARLY IN THE SPRING

First State Bank of Barrows a Prosperous Institution as Shown by First Statement

Barrows, Minn., April 18—Rev. Elbert E. Satterlee, of Brainerd, was at Barrows Friday looking over the lots the townsite company has donated for a church. Rev. Satterlee was very much pleased with the location and it is expected to commence buildings operations this spring.

The First State bank of Barrows has published its first statement and the figures show a gratifying amount of business done. The deposits are daily increasing and every day sees them increase. Many farmers in addition to mining men and business men, are being added to the list of depositors.

Mrs. Marcus Grande, at Northwestern hospital in Brainerd, gave birth to a baby boy Thursday evening.

R. C. Klinkenberg, cashier of the First State bank, has received a fine saddle horse.

Richard Bergum, the real estate man, reports the sale of several residence lots and has a good many inquiries for business lots.

Fires have been raging close to the town for several days, but good, hard fighting on the part of the people extinguished them.

R. M. Mason of the Mason Cedar Co., of Palisade, was in town Tuesday. Mr. Mason will soon have his lumber yard established in Barrows.

J. C. Pearson, of Duluth, was in town Tuesday looking for a location for a meat market.

Work on the new Peck building is progressing nicely.

The work of grading the several streets will be commenced next Monday. Levi Bailey will superintend the work.

ROGER LAKE BRIEFS

Messrs. William Stedtemeyer and Henry Robinson spent Sunday evening at the Stucke place.

Mr. Gilman Harrison was the unfortunate one of losing a large mink and a hatchet Sunday.

Dr. Rhodes, of Blind Lake, spent Saturday and Sunday with the Stucke family.

Messrs. Henry Robinson and Fred Stucke and Miss Lydia Stucke spent Monday evening with Mr. and Mrs. F. Richter and Miss Edith Caird.

The Mud Brook base ball team will practice next Sunday, the 20th, on the Mud Brook grounds. All those interested please attend.

Mrs. I. Baker and sons Harvey and Rubin, visited at the F. Richter place Sunday.

BETTER LIGHT AT LESS EXPENSE

From COAL OIL (Kerosene)

THIS wonderful new incandescent mantle lamp gives more than ten times as much light as the common coal oil lamp. At the same time it burns less than half as much oil as the old style open flame, center draught lamps. Beats electric, gasoline or acetylene. The

Aladdin

Hanging Lamp

is equipped with the adjustable extension chimney and baffle generator which make it the most reliable incandescent mantle lamp ever made. For evening reading, writing or sewing there is no light that can compare with the powerful, steady white light of the Aladdin. Safe, durable and economical, beautiful in design, no noise, no odor. Women and children can operate it. You can't appreciate the great difference between the light of this lamp and the common kerosene lamp 'till you see it. It has all the good qualities of the high priced system but with the advantage of being as simple as the ordinary coal oil lamp.

Let Us Demonstrate It To You

You'll never want to go back to the dingy, reddish, flickering light of your old style lamps. You can have the most cheerful and best lighted home in your neighborhood by getting an Aladdin Mantle Hanging Lamp.
